

# State of Arizona Department of Education

Date: October 1, 2018  
To: Public Education Agency (PEA) Administrators  
From: Exceptional Student Services – Operations  
Subject: Individuals with Disabilities Education Act (IDEA) Final IDEA Allocations are Loaded into Grants Management

The final IDEA allocations have now been pushed into Grants Management within ADEConnect. The amounts were published on September 18, 2018 and PEAs can now access their funding applications to take advantage of their fully entitled allocation.

If your entity already had an application SEA (State Education Agency) Director approved, your grant will be put into revised status for you to apply for the different funding amount. If your application has not already been SEA Director approved, then the adjustments are now loaded in GME for your PEA to submit.

The original timeline for loading allocation adjustments is provided below.

## Timeline

ESS has completed the revisions to the allocations and related actions per the following timelines:

- **September 18** – Publish the spreadsheet with all allocation revisions (detailed by source) for IDEA Entitlement grants
- **September 21** – Provide Grants Management with the required information and indicate notes in the history log of individual PEA grants of the adjustments
- **September 24 to 28** – Grant applications will be moved into a revision status if they are already approved. Grants that are not approved will have the revision loaded with no status change.
- **October 1** – ESS will begin to review any grant revisions utilizing the revised funds.
